

COMPANY PROFILE

CONNECTED BUILDINGS. RELIABLE SYSTEMS.

Smart infrastructure, automation, metering, security and connectivity solutions

INTERNET & FTTH | CCTV & SECURITY | BMS & AUTOMATION

SMART WATER / ENERGY METERING | EV CHARGING

BUILDING A SMARTER TOMORROW

About Coller Solutions LLP

Established in 2017 | Integrated engineering and technology solutions

Coller Solutions LLP was established in 2017 with expertise across parking management, fibre networking, IT and security systems, smart metering, building management, EV charging and command & control centre solutions.

We combine engineering, project management, procurement, installation, commissioning and after-sales support to deliver practical and cost-optimised solutions for buildings and infrastructure.

Our Strength

- Design & engineering of integrated building systems
- Project management and material procurement
- Installation, testing and commissioning
- Training and comprehensive documentation
- After-sales support and maintenance contracts
- Technology-focused, value-added and cost-optimised solution approach

Core Expertise

- Optical Fibre Networking
- Parking & Traffic Management
- Electrical Systems & Automation
- IT & Surveillance
- Prepaid / Smart Metering
- SCADA & BMS Systems
- Smart Street Lighting
- Command & Control Centre
- Smart Water Metering (AMR)
- Smart Gas Metering (AMR)
- EV Charging Solutions
- AMC & Technical Support

Connectivity, Security & Smart Metering

1. Optical Fibre Networking

- Design and installation of passive fibre networks
- Installation and commissioning of GPON active equipment
- GPON fault repair and network maintenance
- Structured cabling and networking
- SLA-based support for service providers

2. CCTV & Surveillance

- Design and implementation of IP-based CCTV networks
- Storage and recording system design
- Coverage planning for gates, lifts, parking and common areas
- Operation, preventive maintenance and fault support

3. Prepaid / Smart Energy Metering

- Smart and prepaid energy metering
- Bulk installation and meter management
- Software operation and EMS integration
- Dual-source metering and building energy-management solutions
- Solutions for residential societies, hotels and commercial buildings

4. Smart Water & Gas Metering (AMR)

- Remote meter reading and gateway-based data collection
- Consumption visibility and billing-oriented integration
- Apartment, zone and utility monitoring applications
- Communication architecture selected according to site conditions

Automation, Water Management & Smart Infrastructure

5. SCADA & Building Management Systems

- Design and development of complete control systems
- Instrumentation erection and commissioning
- SCADA for water, pumps, storage and distribution
- BMS implementation for central monitoring and compatible plant systems
- Electrical panel SITC, substation automation and monitoring
- Remote operation and control for pumping stations

6. Parking Management & Automation

- Automatic boom barriers and pedestrian access gates
- Parking information systems
- RFID long-range readers and access integration
- Automatic bollards and parking software solutions

7. Smart Street Lighting

- Centralised control and management systems
- Group and individual control of street lights
- Dimming, metering and switching of individual LED points
- GPRS, RF and LoRaWAN-based communication options

8. Command & Control Centre

- Command centre design and development
- Video wall and operator sitting arrangement
- Data centre design and integration
- Operation and maintenance of complete systems

EV Charging, AMC & Lifecycle Support

9. EV Charging Solutions

- One-stop support for EV charging station setup
- AC and DC charging solutions
- Electrical feeder, protection and communication integration
- Charging infrastructure for residential, commercial and fleet applications
- Comprehensive / non-comprehensive maintenance support

AMC & Support

- Preventive inspection and scheduled maintenance
- Fault diagnosis and corrective support
- Remote / telephone support and planned site visits
- Comprehensive and non-comprehensive AMC models
- Dedicated technical manpower where required
- Support for metering, CCTV, network, intercom, BMS and related installed systems

Execution Capability

- Requirement study & site survey
- Engineering and BOQ preparation
- Material procurement
- Installation & commissioning
- Training & handover documentation
- Post-installation support

Technology Ecosystem & Experience

Brand / Technology Associations

Smart / Prepaid Metering	Elmeasure, HPL
CCTV	Honeywell, Bosch, Hikvision, CP Plus
BMS / Automation	Honeywell, Schneider, Siemens, Delta
Networking	Cisco, Dell, D-Link, Digital
Fibre Networking	Tejas, ZTE, Huawei, Syrotech
Parking Management	ASN, FAAC, ID Cube
UPS / Power Support	Eaton, Microtek

Selected Client Experience

- Gaursons India Ltd.
- Saya Developers
- Karyan Builders
- Galaxy Developers
- NBCC
- ITC Hotels & Resorts
- World Trade Centre
- L&T Ltd.
- SKA Builders
- Himalaya Developers
- E-Centric Solutions Pvt. Ltd.
- Indian Railways
- Smartworld
- Central Park

Brand and client names are presented from the company's existing profile / current positioning and may vary by project scope.
